All NDE (Non-destructive Examination) techniques are qualified in accordance with SNT-TC-1A & Military Standards. Levels I, II & III on staff.

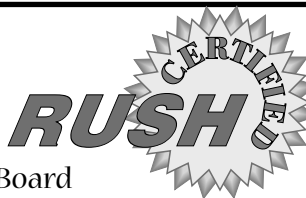

Welding Procedures and Welder Qualification testing is available: Macro's, Tensiles and Bend Testing Capabilities

Casting upgrade

Consulting on welding: non-destructive testing & quality programs are available.

RUSH CERTIFIED

R100™ Mini Series

P-Series vessel fabricated from Hastelloy®

- ASME Section VIII Div 1, U Stamp
- All code vessels registered with National Board
- PED/CE Stamping Available
- Processes - GTAW, GMAW, FCAW
- Thickness to 5"+
- Carbon steel, Stainless steels, Hastelloy, Aluminum, Titanium, +
- Many Welding procedures to meet
- Various MIL Standards, DOT and AWS
- Vectorworks 3D to scale drawings
- Current size limitations: 12,000 lbs, 72" OD, 30 ft length
